

Union Privilege Legal Service providing reduced fee services to Union members

The Union Privilege Legal Service was created by the AFL-CIO to help Union members try to resolve legal problems before they increase. We continue to provide service to union members.

Please find enclosed a copy of the updated flyer setting forth legal benefits in 2018 provided under the Union Privilege Legal Service (UPLS). Please post to your Members and include in your newsletter and website. Our office looks forward to continuing to serve all Union members. In addition, please let us know the current mailing address and email address of the Union president or business manager. We can email them this information.

The Vercammen Law Office provides reduced fee for union members on Criminal & Traffic Court, Probate, Wills, Estates, DWI, Juvenile, Litigation and Personal Injury. Please consider our offices if you need to refer a member. Our office has substantial experience representing people with traffic/ municipal court tickets. Motor vehicle violations and criminal charges can cost your members. They may have to pay substantial fines in court or lose their driver's license.

When a driver's license is in jeopardy or someone is facing thousands of dollars in fines, MVC surcharges and car insurance increases, members need excellent legal representation.
